

## Academy for Teaching Excellence

Powered by Tapas & Teacher Ink

### About Us

The Academy for Teaching Excellence is a collaborative initiative by Tapas Progressive School and Teacher Ink, created with a purpose to uplift teaching standards through structured training, practical exposure, and a progressive learning mindset.

Our focus is to support educators through research-based methods, hands-on strategies, and real classroom application. We believe that empowered teachers shape empowered learners, and learning must evolve with time.

### Our Approach

Our training philosophy is built on three strong pillars:

#### *Progressive Teaching Practices*

Applying contemporary methods such as inquiry-based learning, PBL, reflective teaching, and learner-led classrooms.

#### *Practical and Classroom-Ready Skills*

Every session includes tools that can be implemented immediately, making learning impactful and usable.

#### *Mentorship-Driven Growth*

Continuous guidance, feedback, and reflection support teachers in building confidence and professional clarity.

## Programs & Offerings

- Ethical decision-making
- Leadership pathways in education

## Why Choose Us?

- We believe teaching is a transformative profession that shapes lives, and we support teachers as the key catalyst for meaningful education.
- Our approach is rooted in deep love for learning, children, and educators, ensuring every teacher develops both skill and passion.
- We focus on high-quality professional development that not only informs but transforms teachers into reflective, creative change-makers.
- Our programs are accessible to educators anywhere, regardless of the school type or grade they teach.
- We encourage unconventional thinking and reflective practice, helping teachers grow beyond traditional boundaries.
- Collaboration and community are central; we invite ideas, experimentation, and shared growth.

## Who Can Enroll?

### **Our programs are ideal for:**

- New teachers entering the profession
- Experienced educators seeking upskilling
- School administrators and coordinators
- Facilitators shifting to progressive methodologies
- Anyone passionate about impactful teaching
