Build a Digital Practice That's Truly Yours

Your clients should experience your firm, not your software provider.

Sinewave Cloud gives you a fully white-labelled digital ecosystem where your website, client portal, services and communication all carry your identity.

Your Website. Your Way.

- Create and manage your own website pages
- Set tax tools as public or login-only
- Let clients self-onboard directly from your website
- Maintain clients with or without portal login
- Give clients one secure place to access your services

Documents Stay Under Your Control

A Document Management System connected to your own Google Drive, keeping your document repository under your control

- Classify and organise documents
- Track validity and expiry dates
- Set automatic renewal reminders
- Find documents quickly
- Enable secure client upload and download

Give Every Staff Member the Right Access

- Rights-based access to clients
- Rights-based access to documents
- Assign responsibility by staff member
- Built for solo practitioners, teams and multi-office firms

Never Lose Track of a Deadline

Built-in Task Management gives you complete visibility across your practice.

- Recurring tasks: weekly, fortnightly, monthly, quarterly and annually
- Allocate tasks by client and staff member
- Track due, overdue, pending and completed work
- Monitor everything from one central dashboard

**Less chasing. Better accountability.
Complete practice visibility.**

Manage the Entire Compliance Journey From One Place

Income Tax: From Data to Approval

- Import Prefill, AIS and Form 26AS data
- Reconcile AIS, 26AS and ITR before filing
- Share ITR computation and income sheets with clients for approval
- Auto-download ITR acknowledgements and share them via WhatsApp

Complete TDS Online Workflow

Turn TDS into a collaborative digital process.

- Supports Forms 138, 140, 143 and 144
- Let clients perform their own TDS data entry
- Clients can import Tally data directly from their premises
- Clients complete data entry, then hand the filing back to you
- Prepare correction statements
- Generate Forms 130 and 131
- Track TDS defaults

All Your Compliance Notices in One Place

Access and manage compliance issues across:

Income Tax Notices

TRACES Defaults

GST Notices

Give Clients Their Own Compliance View

Through your branded client dashboard, clients can check:

Income Tax Intimations

Refunds

Income Tax Notices

TDS Defaults

GST Notices

WhatsApp Communication Dashboard

Keep client communication organised instead of scattered across personal phones.

Reminder worklist

WhatsApp broadcasts

Automated greetings

Due-date reminders

Complete interaction logs

Billing & Payments – Built In

- Generate and manage client bills
- Deliver bills through the portal, email or WhatsApp
- Integrate Razorpay / online payment gateway for digital collections

One workflow –
From compliance to communication to collection.

Turn Time-Consuming Work Into Faster, Higher-Value Services

Sinewave Cloud gives your practice intelligent tools that reduce manual work, expand your service offering and help you deliver more value to every client.

Smart Tools for Your Practice and Your Clients

Use these tools within your practice or make selected tools available to your onboarded clients through your own digital platform.

Automate Data Processing

- Capital Gain Consolidation
- Trade Book Processing
- Bank Statement Processing
- Sales & Purchase Register Import

Strengthen Compliance & Reporting

Tally to NCE • AIS-26AS-ITR Reconciliation

Deliver More Client Value

ITR Insight Pro • TaxBot

Do More Than File Returns. Build a Digital Relationship With Every Client.

Reduce repetitive work, improve staff productivity, keep clients engaged throughout the year and offer value-added digital services, all under your own brand.
